

# Music Therapy for Rehabilitation in Post-stroke Non-fluent Aphasia: the Indian Adaptation

NCT06323330

---

Status	RECRUITING
Phase	Not Applicable
Sponsor	All India Institute of Medical Sciences
Enrollment	60 participants

## Key Eligibility Criteria

---

### Inclusion (7)

- All of the following
- Age ≥18 years of age
- Stroke with non-fluent aphasia, within one year of ictus
- Imaging evidence suggestive of ischemic or hemorrhagic stroke of dominant hemisphere
- Patient is alert and able to follow simple commands (should not have global aphasia)

... and 2 more (see full listing online)

### Exclusion (5)

- Any of the following:
- Patients with a history of a previous stroke other than the index event, which can explain the aphasia.
- Any clinical condition (e.g., short life expectancy, coexisting disease) or other characteristics that preclude appropriate follow-up in the study (e.g., distant residence, no family support)
- Patients participating in any therapeutic intervention clinical trials evaluating poststroke recovery
- Use of psychotropic drugs that interfere with patient evaluation
