

# Validation of the Screen of Cancer Survivorship - Occupational Therapy Services (SOCS-OTS) Tool for Use in a Physical Medicine Rehabilitation Clinic

NCT06329531

---

**Status** RECRUITING  
**Sponsor** M.D. Anderson Cancer Center  
**Enrollment** 80 participants

## Key Eligibility Criteria

---

### Inclusion (3)

- Must be 18 years or older
- Currently medically followed in the PMR clinic (with or without acute disease)
- Must speak and read English. The AM-PAC is currently validated in adults only. Additionally, the assessment tools are in English without translation into other languages, therefore only clients who do speak and read English will be included. Pregnant participants are not excluded.

### Exclusion (1)

- \. Potential participants with confusion and cognitive impairments that might hinder their ability to sign an informed consent form or participate in the study.

## Locations (1 total)
