

Structured Personalized Oxygen and Supportive Therapies for Dyspnea in Oncology

NCT06336642

Status	RECRUITING
Phase	Phase 2, Phase 3
Sponsor	M.D. Anderson Cancer Center
Enrollment	150 participants

Key Eligibility Criteria

Inclusion (5)

- Diagnosis of cancer
- Age 18 or older.
- Admitted to a medical floor.
- Dyspnea intensity at rest of at least 4 on a 0-10-point NRS (where 0 = none, 10 = worst).
- Speak English or Spanish.

Exclusion (6)

- Hemodynamic instability requiring active Merit Team or ICU team involvement.
- Delirium as per clinical team's assessment in the Electronic Health Record (EHR).
- Severe hypoxemia (SpO₂ < 90% despite supplemental oxygen of up to 6 L/min).
- Continuous positive airway pressure (CPAP) use for obstructive sleep apnea, actively using >10 hours a day.
- Respiratory failure necessitating mechanical ventilation (i.e., HFNC or NIV), and planned thoracentesis within 72 hours of enrollment.
