

Computational mOdelling of myoCardial pERfusion to Improve ouT-come Prediction Based on cOronary Artery Stenosis and Atherosclerotic Plaque Burden Assessment by Computed Tomography

NCT06337461

Status RECRUITING
Sponsor Centro Cardiologico Monzino
Enrollment 400 participants

Key Eligibility Criteria

Inclusion (1)

- Symptomatic patients with suspected CAD referred for nonemergent, clinically indicated non-invasive coronary angiography.

Exclusion (13)

- Low pre-test likelihood of CAD
- Prior myocardial infarction
- Previous history of revascularization
- Acute coronary syndrome
- Need for an emergent procedure
- ... and 8 more (see full listing online)

Locations (1 total)

Centro Cardiologico Monzino, Milan, Milan, Italy
