

Treatment Targets in Spanish and English Bilingual Speech Intervention

NCT06416306

Status	RECRUITING
Phase	Phase 1
Sponsor	Philip Combiths
Enrollment	16 participants

Key Eligibility Criteria

Inclusion (3)

- Participants will be regularly exposed to English for at least 3 months in one of the following ways: a) an English-speaking caregiver or sibling who interacts with the child on a daily basis in English, b) attendance at an English-speaking daycare, preschool, or elementary school.
- Caregivers will have reported concern with their child's speech development and/or reduced intelligibility on the Intelligibility in Context Scale in Spanish or English.
- Participants will present with 5 or more consonants or clusters missing from their phonetic inventories in each language to confirm presence of a speech sound disorder and sufficient gaps in phonological knowledge to warrant treatment.

Exclusion (1)

- Participants receiving speech or language treatment elsewhere during their participation in this project.

Locations (1 total)
