

SuperSaturated Oxygen Comprehensive Observational Registry

NCT06438315

Status	RECRUITING
Sponsor	TherOx
Enrollment	1,000 participants

Key Eligibility Criteria

Inclusion (10)

- Subjects screened for either the Prospective Control Cohort or the SSO2 Treated (On-Label or All Others) Cohorts must meet ALL the following baseline criteria:
 - Men or women aged 18 years or older
 - Presentation with AMI and successful revascularization of the infarct-related artery with PCI
 - The subject or their legally authorized representative has been informed of the nature of the study, agrees to its provisions and has been provided and signed written informed consent, approved by the appropriate Institutional Review Board (IRB)
 - Treatment with SSO2 Therapy will be up to the physician's discretion and the decision will be made prior to enrollment in the study. Any subject that is treated with SSO2 Therapy and meets the baseline criteria should be invited to participate in the study.
- ... and 5 more (see full listing online)

Exclusion (4)

- Subjects will be excluded if they meet any of the following criteria:
- Life expectancy of less than 2 years
- No access to medical records from either the index hospitalization or subsequent outpatient visits
- Currently participating in an investigational drug or device trial
