

A Study of Maribavir in Chinese Adults With Cytomegalovirus (CMV) Infections

NCT06439342

Status	RECRUITING
Phase	Phase 3
Sponsor	Takeda
Enrollment	20 participants

Key Eligibility Criteria

Inclusion (17)

- The participant or the participant's legally acceptable representative is willing and able to understand and fully comply with study procedures and requirements, in the opinion of the investigator.
- The participant/participant's legally representative has provided informed consent (that is, in writing, documented via a signed and dated informed consent form \[ICF\]) and any required privacy authorization prior to the initiation of any study procedures.
- The participant is aged 18 years or older (ie, greater than or equal to \geq 18 years) at the time of signing the ICF.
- The participant must be of Chinese descent, defined as born in China and having Chinese parents and Chinese maternal and paternal grandparents.
- The participant must be a recipient of hematopoietic stem cell or solid organ transplant.
