

Assessing Biomarker in Giant Cell Arteritis and Polymyalgia Rheumatic

NCT06460142

Status RECRUITING
Sponsor University of Bonn
Enrollment 100 participants

Key Eligibility Criteria

Inclusion (2)

- Informed Consent: Participants (>18 years) must provide written informed consent to voluntarily participate in the study.
- Confirmed Diagnosis: Diagnosis of GCA or PMR confirmed by the treating physician and fulfilling expanded ACR-EULAR classification criteria. Patients must have been either newly diagnosed within the last three days or have experienced a disease flare within the same timeframe.

Exclusion (3)

- Severe Renal Insufficiency: Chronic glomerular filtration rate (GFR) less than 30 mL/min.
- Other Medical Conditions Requiring Glucocorticoids: Presence of medical conditions other than GCA or PMR that necessitate continuous or intermittent treatment with oral or parenteral glucocorticoids.
- Other Inflammatory Rheumatic Diseases: Patients with other inflammatory rheumatic diseases.
