

The Use of DXA in Scoliosis

NCT06512038

Status	RECRUITING
Phase	Not Applicable
Sponsor	Sheffield Children's NHS Foundation Trust
Enrollment	20 participants

Key Eligibility Criteria

Inclusion (2)

- Patients with Adolescent Idiopathic Scoliosis (AIS, aged 10-16 years) or Juvenile Idiopathic Scoliosis (JIS, aged 4-9 years) having an x-ray to look for curve progression OR to guide design of a new brace.
- Patients with quadriplegic Cerebral Palsy (CP) having an x-ray to look for curve progression. Within the age range for inclusion for patients with CP, the recruiting clinician will make a clinical judgement on whether the patient is able to lie still long enough to undertake the iDXA, before inviting the patient to take part.

Exclusion (2)

- Parents unable to understand the study procedures.
- Patients unable to lie still for 1-2 minutes
