

PTSD Screening in Pregnant Black Women

NCT06522022

Status	RECRUITING
Phase	Not Applicable
Sponsor	Emory University
Enrollment	804 participants

Plain Language Summary

This study is testing a PTSD screening tool for Black women in their first trimester of pregnancy, to identify those who may have trauma histories and connect them with appropriate support during prenatal care.

****You may be eligible if...****

- You are 18 or older
- You identify as Black or African American
- You are pregnant and in your first trimester, attending an initial prenatal care visit
- You have experienced at least one traumatic event in your lifetime
- You speak English and are able to provide informed consent

****You may NOT be eligible if...****

- You are currently experiencing active suicidal thoughts

Talk to your doctor to see if this trial is right for you.
