

# Marginal Ulcer Healing With Low-Thermal Argon Plasma Endoscopic Treatment

NCT06543316

---

Status	RECRUITING
Phase	Not Applicable
Sponsor	Christopher C. Thompson, MD, MSc
Enrollment	100 participants

## Key Eligibility Criteria

---

### Inclusion (8)

- Subjects aged 18 years and above, inclusive of both males and females.
  - Patients with a history of Roux-en-Y gastric bypass (RYGB) presenting symptoms indicative of marginal ulcers (MUs) such as abdominal pain, nausea, vomiting, gastrointestinal bleeding, or dysphagia.
  - Subjects must be scheduled for an EGD for the evaluation of these symptoms.
  - Marginal ulcers confirmed during the initial EGD.
  - Willingness to adhere to the SOC treatment, which includes PPIs.
- ... and 3 more (see full listing online)

### Exclusion (7)

- Inability to provide informed consent.
  - Unwillingness to undergo repeated endoscopies.
  - Inability or unwillingness to comply with the SOC.
  - Current use of systemic antibiotics.
  - Any condition deemed by the investigator to compromise the safety of undergoing an endoscopic procedure.
- ... and 2 more (see full listing online)
