

A Suggested Rehabilitation Protocol for the Treatment of C-shape Scoliosis

NCT06563141

Status	RECRUITING
Phase	Not Applicable
Sponsor	Cairo University
Enrollment	70 participants

Key Eligibility Criteria

Inclusion (2)

- Adult individuals aged 18 to 30 years (after complete ossification and before the start of the ageing process and joint changes) as mentioned in studies.
- Thoracolumbar scoliosis with Cobb angle between 10 to 30 degrees because a curve below 10 degrees has no effect and above 30 is indicated for surgery.

Exclusion (9)

- History of orthopaedic surgeries.
- History of road traffic accidents (RTA).
- Myopathy.
- True leg length discrepancy.
- Neuropathy.

... and 4 more (see full listing online)

Locations (1 total)

May University in Cairo (MUC), Cairo, Egypt
