

Fall Risk Identification and Management for Older Veterans

NCT06573983

Status	RECRUITING
Phase	Not Applicable
Sponsor	VA Office of Research and Development
Enrollment	108 participants

Key Eligibility Criteria

Inclusion (5)

- Screens positive for increased fall risk within GeriPACT, or generalPACT as needed, (answers "yes" to any of 3 screening questions)
- years of age and older
- Positive screen on at least two fall risk factor assessments (Aim 1); Positive screen on at least one fall risk factor assessment (Aim 2)
- Access to telehealth
- Availability of an additional adult (e.g., caregiver or family member) to be present during the physical assessment

Exclusion (7)

- Life expectancy <12 months, as determined by PCP
- Neurological diagnosis (e.g., cerebral vascular accident, multiple sclerosis, Parkinson's Disease)
- Moderate cognitive impairment (<13 on telephone Montreal Cognitive Assessment (MoCA-BLIND) or <18 on MoCA Full administered during clinic visit in the previous 3 months)
- Unstable condition that precludes safe participation in structured exercise (e.g., recent deep vein thrombosis) if expected fall risk factor is physical, as determined by PCP or chart review
- Participation in any intervention components of the FRIM model, with the intention of reducing a FRIM fall risk factor, within the past 2 months
- ... and 2 more (see full listing online)
