

Interventions for Clinical High Risk Youth in Tunisia

NCT06582901

Status	RECRUITING
Phase	Not Applicable
Sponsor	University of California, Los Angeles
Enrollment	54 participants

Key Eligibility Criteria

Inclusion (5)

- Meets Comprehensive Assessment for At Risk Mental States (CAARMS) criteria for Clinical High Risk
- If under the age of 18, the subject has a parent or guardian who can sign consent forms
- Premorbid Intelligence Quotient not less than 70
- Sufficient fluency in Arabic, French, or English to avoid invalidating research measures
- Residence likely within commuting distance of Razi University Hospital

Exclusion (3)

- Evidence of known neurological disorder, e.g. epilepsy or significant head injury that could account for the CHR symptoms
- Evidence of significant and habitual alcohol or substance use in the 6 months prior to study entry
- Evidence that the clinical high-risk symptoms were substance-induced
