

Endoscopic Ultrasound Shear Wave Elastography Study

NCT06592820

| | |
|-------------------|-------------------------------------|
| Status | RECRUITING |
| Sponsor | Olympus Corporation of the Americas |
| Enrollment | 300 participants |

Key Eligibility Criteria

Inclusion (6)

- years of age or older
- Willing and able to provide informed consent
- Patient scheduled to undergo EUS with liver biopsy, either same session or separately; if separate, liver biopsy should be performed within 3 months of the EUS (either before or after) with no interval bariatric procedure/surgery or weight change of $\geq 10\%$ total body weight
- Patient scheduled to undergo or have undergone FibroScan, which should be performed within 3 months of the EUS (either before or after) with no interval bariatric procedure/surgery or weight change of $\geq 10\%$ total body weight
- BMI ≥ 28

... and 1 more (see full listing online)

Exclusion (6)

- Patients with surgically altered anatomy that precludes adequate endosonographic visualization of the liver parenchyma
- Prior history of Hepatitis B or C infection
- Decompensated cirrhosis (GI bleeding, ascites, encephalopathy)
- Histological evidence of other concomitant chronic liver disease on biopsy
- Inadequate liver biopsy

... and 1 more (see full listing online)

Locations (2 total)

Brigham and Women's Hospital, Boston, Massachusetts, United States
Geisinger Medical Center, Danville, Pennsylvania, United States
