

Follow-up Study of Individuals with Autoantibodies Against Ro/SSA and La/SSB

NCT06594861

Status RECRUITING
Sponsor Karolinska Institutet
Enrollment 500 participants

Key Eligibility Criteria

Inclusion (4)

- To be included in the risk group, the following criteria must be met:
- \- At least one instance of testing positive for Ro/SSA or La/SSB, regardless of the method used.
- To be included in the control group, the individual must:
- \- Have no rheumatologic disease and no autoantibodies against Ro/SSA or La/SSB.

Exclusion (4)

- Below 18 years of age
- Inability to consent to their own participation
- Ongoing infection or severe illness where the study physician deems participation in the study not to be in the individuals best interest
- Inability to read and understand Swedish, and therefore unable to complete the forms and questionnaires included in the project
