

Canadian Critical Care Comparative Effectiveness Platform

NCT06605144

Status	RECRUITING
Phase	Phase 3
Sponsor	Université de Sherbrooke
Enrollment	5,500 participants

Key Eligibility Criteria

Inclusion (14)

- VASOPRESSOR DOMAIN There is no minimum age limit in the Vasopressor Domain.
- Ongoing vasopressor infusion to treat hypotension, or would be used to treat clinician-defined hypotension as part of usual care;
- MAP \leq 75 mmHg at any point (or lower than the upper value of the highest mean arterial pressure (MAP) target range activated locally);
- Patient expected to be in the ICU for \geq 48 hours.
- Previously randomized into the CEPEC Vasopressor Domain or a confounding trial.

... and 9 more (see full listing online)

Exclusion (17)

- Treating team does not have equipoise for at least two contiguous MAP target ranges in the CEPEC Vasopressor Domain;
- Acute traumatic brain injury (within 7 days of injury or ongoing active treatment for elevated intracranial pressure);
- Acute subarachnoid hemorrhage (within 21 days);
- Acute spinal cord injury (within 7 days of injury or ongoing vasopressor therapy for suspected spinal cord ischemia);
- Lung, heart, liver, kidney transplant recipient (within 7 days);

... and 12 more (see full listing online)

Locations (8 total)

Hamilton Health Sciences - Juravinski Hospital, Hamilton, Ontario, Canada
The Ottawa Hospital, Ottawa, Ontario, Canada
Scarborough Health Network, Scarborough Village, Ontario, Canada
