

# A Study to Evaluate IPN10200 Safety and Efficacy in the Prevention of Episodic or Chronic Migraine in Adults

NCT06625060

---

Status	RECRUITING
Phase	Phase 2
Sponsor	Ipsen
Enrollment	641 participants

## Key Eligibility Criteria

---

### Inclusion (7)

- Capable of giving signed informed consent, which includes compliance with the requirements and restrictions listed in the ICF. Participant has provided written informed consent and signed privacy/data protection documentation;
- Male or female e18 to 80 years of age at the time of signing the informed consent;
- Diagnosis of either EM or CM, per ICHD-3 criteria, for at least 12 months prior to the screening visit;
- Diagnosis of migraine at d50 years of age;
- Participants in the EM group: History of EM diagnosis and headache frequency (i.e. migraine and non-migraine headache): d14 headache days in the 4 weeks prior to randomisation on study Day 1 based on information recorded in the eDiary; migraine frequency: e6 migraine days in the 4 weeks prior to randomisation on study Day 1 based on information recorded in the eDiary;
- ... and 2 more (see full listing online)

### Exclusion (28)

- History or current diagnosis of migraine with brainstem aura, retinal migraine, complications of migraine, tension-type headache, trigeminal autonomic cephalalgias, hypnic headache, hemicrania continua or new daily persistent headache;
- Headache attributed to another disorder (e.g. secondary headaches), except medication overuse headache (MOH);
- Current uncontrolled psychiatric or psychological condition, or one that could confound assessment of headaches/migraines or interfere with study participation;
- Risk of self-harm or harm to others as evidenced by past suicidal behaviour or endorsing items 3, 4, or 5 on the C-SSRS at screening or Day 1.
- Participants presenting with a swallowing disorder of any origin which might be exacerbated by botulinum toxin treatment, such as:
- ... and 23 more (see full listing online)

## Locations (166 total)

---

Central Research Associates, Birmingham, Alabama, United States  
Rehabilitation & Neurological Services, LLC, Huntsville, Alabama, United States  
MD First Research - Chandler - Neurology, Chandler, Arizona, United States  
... and 163 more locations
