

Impact of Providing Nursing Support on Parental Stress Related to Preoperative Care of a Newborn with Hirschsprung's Disease

NCT06650683

Status	RECRUITING
Phase	Not Applicable
Sponsor	Assistance Publique Hopitaux De Marseille
Enrollment	20 participants

Key Eligibility Criteria

Inclusion (3)

- Families (one or two parents) with a newborn or infant under 2 months with confirmed or suspected Hirschsprung disease, for whom nursings are effective and performed 1 to 2 times a day while waiting for surgery.
- With a possible return home before surgery
- With an information leaflet and non-opposition form signed by one or both parent(s) or by the legal representative.

Exclusion (4)

- The absence of daily nursings
- Initial ineffectiveness of nursings requiring a digestive stoma
- Failure to return home before surgery
- Refusal of one or both parent(s) or legal representative(s)
