

# Natural History of Uncommon Dyslipidemias, Rare Lipid Disorders and Unusual Atherosclerotic Conditions

NCT06676046

---

**Status** RECRUITING  
**Sponsor** National Heart, Lung, and Blood Institute (NHLBI)  
**Enrollment** 1,500 participants

## Key Eligibility Criteria

---

### Inclusion (9)

- Affected Participants
  - Male and female participants age  $\geq$  10 years.
  - Subjects with confirmed or suspected rare disorder that causes lipid/lipoprotein abnormalities (dyslipidemia) or abnormal documented or referred atherosclerosis patterns.
  - Only affected individuals (not healthy volunteers and for self-referred subjects independent of lipid and lipoprotein marker values.); subjects with laboratory or clinical presentation that in the opinion of the Principal Investigator, would alter the determination of normal
  - parameters for assays and screening tools development.
- ... and 4 more (see full listing online)

### Exclusion (2)

- Patients with disorders that cause common secondary/lipoprotein alterations.
- Patients with any other findings that, in the opinion of the Principal Investigator, would preclude them from participating in the study.
