

MDMA in Borderline Personality Disorder

NCT06683014

Status	RECRUITING
Phase	Phase 2
Sponsor	Yale University
Enrollment	10 participants

Key Eligibility Criteria

Inclusion (16)

- Adults between the ages of 18-60 years
- Body weight between 110 and 210 pounds. Minimum body mass index (BMI) 16.5.
- Able to swallow pills.
- Must provide a contact (relative, spouse, close friend or other support person) who is willing and able to be reached by the investigators in the event of a participant becoming suicidal or unreachable and must sign release of information for this contact person.
- People of childbearing potential must agree to utilize a highly effective method of birth control (including the following, in accordance with Clinical Trials Facilitation and Coordination Group (CTFG) guidelines: combined estrogen and progestogen containing hormonal contraception associated with inhibition of ovulation, including oral, intravaginal, and transdermal administrations; estrogen-only hormonal contraception associated with inhibition of ovulation, including oral, injectable, and implantable forms; intrauterine device (IUD); intrauterine hormone-releasing system (IUS); bilateral tubal occlusion; vasectomized partner; abstinence from sexual activity with biological males) and for one month prior to dosing and for the duration of the two week follow-up period.

... and 11 more (see full listing online)

Exclusion (14)

- History of bipolar disorder, schizophrenia or schizoaffective disorder or currently exhibiting psychotic features as determined by the Structured Clinical Interview for DSM5 (SCID-5) and/or clinician assessment.
- Lifetime diagnosis of autism.
- Serious suicide risk in the past 6 months, as assessed by Columbia Suicide Severity Rating Scale (CSSRS) type 4 or 5 ideation, or suicidal behavior (CSSRS item) or preparatory acts (CSSRS item).
- Any current substance use disorder (in the last 1 month) per SCID interview for alcohol or non-alcohol substances; or a positive pre-study (screening) urine drug screen.
- Any severe substance use disorder during the last 6 months.
