

# Artificial Intelligence-driven Virtual Standardized Pediatric Patients Trial

NCT06699433

---

<b>Status</b>	RECRUITING
<b>Phase</b>	Not Applicable
<b>Sponsor</b>	Southern Medical University, China
<b>Enrollment</b>	459 participants

## Key Eligibility Criteria

---

### Inclusion (4)

- Primary and secondary hospitals
- Community health centers (stations) and clinics, as well as township health centers and village health clinics
- Practicing (assistant) doctors and rural doctors working in medical institutions that meet the above conditions
- With a scope of practice only including general practice, internal medicine, surgery, and pediatrics

### Exclusion (6)

- Specialized medical institutions (such as specialized hospitals and dental clinics)
- Public health prevention and treatment institutions (such as tuberculosis prevention centers)
- Ethnic medicine institutions (such as Mongolian and Tibetan hospitals)
- Hospitals above the secondary level
- Hospitals that have not yet been graded (due to their short establishment time and potentially unstable operations)
- ... and 1 more (see full listing online)
