

Group Telehealth Behavioral Cough Suppression Therapy

NCT06706765

Status	RECRUITING
Phase	Early Phase 1
Sponsor	University of Montana
Enrollment	60 participants

Key Eligibility Criteria

Inclusion (7)

- At least 18 years old
 - Predominantly dry cough for at least 8 weeks
 - Evaluated and treated by at least one physician for cough
 - Obtained a chest X-ray or chest CT scan specifically related to the cough with unremarkable results
 - Access to a computer or tablet that includes a camera and able to use the device independently
- ... and 2 more (see full listing online)

Exclusion (9)

- Under age 18
 - Coughing up blood
 - Current smoker of any substance
 - History of smoking or 10 or more years
 - Diagnosed with a chronic lung condition (e.g., COPD, emphysema, lung cancer, idiopathic pulmonary fibrosis, chronic bronchitis, asthma)? (NOTE: If a patient has been told their cough may be (or is likely) due to asthma but they have not had any formal lung testing and asthma treatments have not helped your cough, we don't consider this a formal asthma diagnosis and will not exclude them from the study.)
- ... and 4 more (see full listing online)
