

# PRGF-ENDORET® Infiltrations in the Treatment of Low Back Pain.

NCT06715085

---

Status	RECRUITING
Phase	Phase 4
Sponsor	Biotechnology Institute IMASD
Enrollment	48 participants

## Key Eligibility Criteria

---

### Inclusion (7)

- Patients of legal age (≥18 years).
- Patients diagnosed by Magnetic Resonance Imaging (MRI) with lumbar intervertebral disc degeneration(s) (Pfirrmann Scale ≥1). Patients with positive signs in MRI at L4-L5 and/or L5-S1 levels, including rupture of the annulus fibrosus, annular fissure, with or without disc herniation in its protrusion form will be included.
- Patients with low back pain with symptoms of low back pain for at least 3 months of evolution that has not responded to drug treatment.
- Numerical pain scale (COMI PAIN SCORE): between 6 and 10, average of the last month.
- Availability of an MRI performed in the last six months to allow the diagnosis.

... and 2 more (see full listing online)

### Exclusion (12)

- Patients with lumbar fracture, extruded herniated discs and herniated discs with signs of calcification are excluded.
- Patients with severe discopathies at levels adjacent to L4-L5 and/or L5-S1.
- Patients who have previously undergone spinal surgery.
- Patients who have undergone invasive procedures on the spine in the last 6 months, such as infiltrations, blocks, lavage or lumbar rhizolysis.
- Patients with neurogenic motor claudication.

... and 7 more (see full listing online)
