

Personalized Treatment of Refractory BPPV

NCT06725966

Status	RECRUITING
Phase	Not Applicable
Sponsor	Hospital Clinico Universitario de Santiago
Enrollment	54 participants

Key Eligibility Criteria

Inclusion (7)

- A. Diagnosed with BPPVp according to the Barany Society criteria:
- Recurrent episodes of vertigo or positional instability, triggered by lying down or turning the head in the supine position.
- Episodes lasting less than 1 minute.
- Positional nystagmus observed after a latency period during the Dix-Hallpike test (DHT), with an upward vertical component and a torsional component (clockwise on the left side and counterclockwise on the right).
- Symptoms not explained by any other cause.

... and 2 more (see full listing online)

Exclusion (4)

- Cognitive impairment that prevents understanding of their condition and the required procedures.
- Pathological conditions that hinder the execution of the maneuvers.
- BPPV involving canals other than the posterior canal or bilateral posterior canal involvement.
- Low educational level, which may impede understanding of the procedures and informed consent.
