

Exploring Neurophysiological Markers of Brain Health

NCT06731452

Status	RECRUITING
Phase	Not Applicable
Sponsor	The University of Texas at Dallas
Enrollment	63 participants

Key Eligibility Criteria

Inclusion (7)

- Must be an active brain imaging participant in The BrainHealth Project (NCT04869111)
- Minimum age of 22
- Fluent in English
- Able to read & hear information over a computer
- Must pass an MRI safety screener to assess the presence of contraindicators for MRI compatibility (i.e., non-removable metal within/on the body, claustrophobia, pregnancy, non-correctable vision problems, head trauma, and CNS disease) or other standard requirements as determined by the Imaging Center.

... and 2 more (see full listing online)

Exclusion (11)

- A diagnosis of a neurodegenerative disease
- A history of stroke, concussion, or brain injury that currently hinders them from functioning at their prior level
- A diagnosis of autism spectrum disorder that currently hinders them from functioning independently.
- Metallic brain implants or fragments (like a shunt, pacemaker, clips, coils, bullet fragments, cochlear implants)
- Magnetically activated implants or electronically implanted devices

... and 6 more (see full listing online)
