

Fast Discharge After Acute Myocardial Infarction Discharge MI

NCT06744322

Status	RECRUITING
Phase	Not Applicable
Sponsor	Medical University Innsbruck
Enrollment	2,070 participants

Key Eligibility Criteria

Inclusion (4)

- Uncomplicated acute myocardial infarction (NSTEMI and STEMI) diagnosed according to the 2023 acute coronary syndrome guidelines of the ESC
- Age ≥ 18 years at time of consent
- Invasive management strategy and in case of PCI successful intervention of the culprit lesion defined by post-interventional TIMI 3 flow
- Ability to understand and willingness to sign and date written informed consent

Exclusion (10)

- Myocardial infarction complicated by cardiac arrest (out-of-hospital cardiac arrest/in-hospital cardiac arrest)
- PCI-related complications (coronary perforation, side branch closure, inability to deliver stent/balloon, aortic dissection, allergic reaction grade ≥2, stroke/thromboembolism, access site complications including pseudoaneurysm, arteriovenous fistula, retroperitoneal hemorrhage and arterial dissection/occlusion or emboli)
- Malignant arrhythmias including sustained ventricular arrhythmias and persistent bradycardia (< 50 beats per minute due to sinus node or atrioventricular conduction system abnormalities, second- /third-degree atrioventricular block) after PCI
- Ongoing hemodynamic instability (systolic blood pressure <90 mmHg, elevated lactate concentrations, need for inotropes or vasopressors)
- Ongoing respiratory instability defined by Killip class ≥I (rales, pulmonary edema)

... and 5 more (see full listing online)

Locations (8 total)

Hospital Wiener Neustadt, Wiener Neustadt, Lower Austria, Austria
Paracelsus Medical University Salzburg, Salzburg, Salzburg, Austria
Cardinal Schwarzenberg Hospital Schwarzach, Schwarzach im Pongau, Schwarzach Im Pongau, Austria
... and 5 more locations
