

Clinical Validation of the Aptitude Medical Systems Metrix COVID-19 Test

NCT06744660

Status	RECRUITING
Phase	Not Applicable
Sponsor	Aptitude Medical Systems
Enrollment	1,000 participants

Key Eligibility Criteria

Inclusion (5)

- Participant or guardian understands and is able and willing to provide written informed consent, and assent where applicable, prior to study enrollment.
- Male or female aged 2 years or older
- Participant is currently exhibiting fever, or one or more symptoms of respiratory tract infection (such as, but not limited to, chills, cough, shortness of breath or difficulty breathing, fatigue, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting or diarrhea). Participant must still be exhibiting symptoms on the day of sample collection.
- Participant or guardian agrees to read, and is able to read with understanding, the AN swab QRI prior to beginning the operation of each of the Metrix COVID-19 Test.
- Participant or guardian is able and willing to contribute the required swab samples for testing and understands and is able and willing to sign the study informed consent.

Exclusion (9)

- Participant does not understand and/or is not able and willing to sign the study informed consent and/or assent.
- Participant or guardian is not able to comply with nasal swab collection requirements following the QRI.
- Participant has previously provided a sample for the study.
- Participant is not able to tolerate sample collection.
- Participant is currently undergoing antiviral treatment such as baloxavir marboxil (trade name Xofluza®), oseltamivir (Tamiflu®), zanamivir (Relenza®), and peramivir (Rapivab®).

... and 4 more (see full listing online)
