

# Brief Pain Reprocessing Therapy in Veterans

NCT06771713

---

<b>Status</b>	RECRUITING
<b>Phase</b>	Not Applicable
<b>Sponsor</b>	University of Michigan
<b>Enrollment</b>	45 participants

## Key Eligibility Criteria

---

### Inclusion (4)

- Low back pain that has lasted greater than 6 months, with pain on at least half of these days
- Must provide verification of being an Armed Service Veteran.
- Able to read, write and speak English
- Internet access and audio-conferencing capability (e.g., Zoom meetings by phone or computer) in the home

### Exclusion (7)

- Self-reported evidence of a separate medical condition (e.g., rheumatoid arthritis), acute injury in the past 12 months (e.g., self-reported spinal fracture), self-reported loss of bowel or bladder control in the past year (which may indicate presence of cauda equina syndrome), or evidence of presence of a metastasizing cancer requiring treatment
  - Pending surgical procedures or interventional therapies (e.g., spinal injections) within the next 12 months
  - Confirmed/suspected pregnancy
  - Evidence of other conditions that may preclude participants from understanding or being able to participate in study procedure (e.g., schizoaffective disorder, suspected or diagnosed dementia)
  - Currently receiving cognitive-behavioral therapy or other psychological therapies for pain
- ... and 2 more (see full listing online)
