

Immunodysregulation As an Expression of Underlying Inborn Errors of Immunity: Implementation of Diagnostics and Management of Pediatric and Adult Patients with Immune System Disorders

NCT06773546

Status RECRUITING
Sponsor IRCCS Azienda Ospedaliero-Universitaria di Bologna
Enrollment 400 participants

Key Eligibility Criteria

Inclusion (3)

- patients with confirmed or suspected Inborn Errors of Immunity;
- age \leq 50 years at onset of clinical features suspected for Inborn Errors of Immunity;
- obtaining informed consent from patients or parents/legal guardian of pediatric patients.

Exclusion (1)

- patients in whom infectious susceptibility and immunodysregulation can only be attributed to known non-immunological causes: acquired immunodeficiency secondary to chronic infections (HIV), and acquired immunodeficiency secondary to immunosuppressive treatment.

Locations (1 total)
