

# Molecular Biology in the Identification of Pathogens at Reimplantation in the Two-Stage Treatment of Periprosthetic Infections

NCT06804265

---

**Status** RECRUITING  
**Sponsor** IRCCS Azienda Ospedaliero-Universitaria di Bologna  
**Enrollment** 100 participants

## Key Eligibility Criteria

---

### Inclusion (4)

- Diagnosis of periprosthetic infection of hip, knee, shoulder on primary or already revised implant.
- treatment of infection with two-stage protocol.
- Obtaining informed consent
- Age ≥18 years

### Exclusion (1)

- Isolates obtained during explantation not included in MULTIPLEX PCR panel

## Locations (1 total)
