

Effectiveness and Safety of Knee Cartilage Lesion Treatment Using CartiONE: 1-to-13 Year Follow-up.

NCT06809231

Status RECRUITING
Sponsor Cartilage Repair Systems BV
Enrollment 100 participants

Key Eligibility Criteria

Inclusion (2)

- Patients treated with CartiONE for knee cartilage lesion more than 6months prior to inclusion in this study.
- The study site holds a patient record of all relevant medical history data, including operation reports of any prior knee surgeries, the index-knee surgery report, and posttreatment observations and re-intervention reports, if applicable.

Exclusion (1)

- Patients cannot be included if any condition exists that is judged by the treating surgeon as making the patient not suited for participation.

Locations (5 total)

UZ Ghent, Ghent, Oost-Vlaanderen, Belgium
AZ Monica, Antwerp, Belgium
MIRAI, Warsaw, Poland
