

# High-Tech Rehabilitation Pathway for Acute Adult Neuromuscular Diseases - Fit4MedRob-Acute MND Project

NCT06822231

---

Status	RECRUITING
Phase	Not Applicable
Sponsor	Istituti Clinici Scientifici Maugeri SpA
Enrollment	124 participants

## Key Eligibility Criteria

---

### Inclusion (5)

- Adults with ages ranging from 18 to 80 years.
- Patients with a confirmed diagnosis of acute/subacute neuromuscular diseases (e.g. GBS, CIM, CIP)
- Time of onset ranging from 15 to 30 days
- Patients with lower limb strength (Medical Research Council or MRC)  $\geq 2$  in at least two of the flexor and extensor muscles of the following joints: hip, knee and ankle
- Possibility of obtaining informed consent

### Exclusion (3)

- Patients with unstable medical conditions (e.g. severe cardiovascular diseases, such as "New York Heart Association" - NYHA=4, respiratory distress not compensated by ventilation) that could interfere, in the clinician's judgment, with their ability to safely participate in the study or to perform the assessments related to the protocol.
- Patients currently participating in other clinical trials that could interfere with this study.
- Pregnant or breastfeeding women.
