

AuriculoTherapy NeuroImaging

NCT06825390

Status	RECRUITING
Phase	Not Applicable
Sponsor	Keith M Vogt
Enrollment	60 participants

Key Eligibility Criteria

Inclusion (2)

- Adult, at least 18 years old
- Episodes of chronic low back pain at least daily for at least 6 months, with an average pain score within the last week of 3/10.

Exclusion (11)

- active lesions, skin disruptions, or neuropathy of either ear;
- recent (<1 month) analgesic procedures or surgery;
- recent (<1 month) start of new analgesic or psychoactive medication (including marijuana, opioids, tramadol, methadone, gabapentinoids, anti-depressants, anti-epileptics, mood-stabilizers, anti-psychotics, or stimulants);
- history of chronic pain in shoulder or thumb (to avoid confounding at control stimulation points);
- recent (< 3 months) illicit drug use;
- ... and 6 more (see full listing online)
