

A Multicenter Study on Atrioventricular Regurgitation in Transthyretin Amyloid Cardiomyopathy: Definition, Prevalence, and Prognostic Impact.

NCT06836011

Status RECRUITING
Sponsor Medical University of Vienna
Enrollment 600 participants

Key Eligibility Criteria

Inclusion (4)

- Diagnosis of ATTR-CM according to current diagnostic criteria
- Comprehensive baseline echocardiographic assessment, including (semi-)quantitative mitral and tricuspid regurgitation (MR/TR) parameters, performed within ± 6 months of diagnosis
- Age ≥ 18 years
- Willingness to participate in the study and provide informed consent

Exclusion (2)

- Severe aortic valve disease requiring intervention
- Inability to provide informed consent or participate in study follow-up
