

RESTI Registry: Spanish Registry of Primary Immune Thrombocytopenia and Other Immune Thrombocytopenia

NCT06919341

Status	RECRUITING
Sponsor	Fundación Española de Hematología y Hemoterapia
Enrollment	1,000 participants

Key Eligibility Criteria

Inclusion (2)

- Children as young as 2 months of age and adults in follow-up since 2015 (irrespective of date of diagnosis) with the diagnostic presumption of PIT or other thrombocytopenia of probable immune origin defined as a platelet count $< 100 \times 10^9/L$.
- Patients who have given written informed consent. In the case of deceased patients, the data will be included in the registry and the investigator will record the impossibility of collecting patient's informed consent form due to death. Only patients deceased after December 31 2015, will be included

Exclusion (1)

- Patients who, at the investigator's discretion, do not meet the conditions for inclusion in the study
