

Addressing Social Needs to Improve Health in Adults With Multiple Chronic Conditions

NCT06941519

Status	RECRUITING
Phase	Not Applicable
Sponsor	Kaiser Permanente
Enrollment	800 participants

Key Eligibility Criteria

Inclusion (3)

- Two or more chronic medical conditions from a defined list of 24 chronic conditions
- One or more gaps in evidence-based care (related to condition-specific risk factor management, evidence-based screening and preventive care, missed appointments, and medication non-adherence),
- At least one self-reported social-related barrier to care or "social need" (e.g., transportation, food, housing, utilities, and/or financial insecurity).

Exclusion (2)

- major cognitive barriers (dementia, psychosis).
- multiple prior year hospitalizations ("extremely high utilizers")
