

Real-world Study of Treatment Outcomes in Chronic Inflammatory Demyelinating Polyneuropathy/Polyradiculoneuropathy (CIDP)

NCT06968975

Status RECRUITING
Sponsor Sanofi
Enrollment 200 participants

Key Eligibility Criteria

Inclusion (14)

- Participants are eligible to be included in the study only if all of the following criteria apply:
- Neurologist-confirmed diagnosis of CIDP found in the medical record, with the last neurologist visit prior to enrollment containing no information that suggests this diagnosis was reversed
- Active use of at least one of the following CIDP treatments for three months or longer, with no evidence of discontinuation of this therapy as of the last neurologist visit prior to enrollment
 - immunoglobulin
 - corticosteroids, with the exception of prednisone (or equivalent) monotherapy at 10mg or less per day
- ... and 9 more (see full listing online)

Exclusion (5)

- Participants are excluded from the study if any of the following criteria apply:
- Evidence of participation in any interventional clinical trial with an investigational drug at the time of enrollment
- Hyperreflexia (increased reflexes) recorded in the medical record during a neurological exam the year before enrollment and after CIDP diagnosis
- Aged under 18 at the time of enrollment
- The above information is not intended to contain all considerations relevant to a participant's potential participation in a clinical trial.
