

A Skin Image Reference Tool to Aid Healthcare Providers' Diagnosis

NCT07033169

Status RECRUITING
Sponsor Wake Forest University Health Sciences
Enrollment 400 participants

Key Eligibility Criteria

Inclusion (3)

- Patient must present to an Advocate Health dermatology clinic
- Patient must have the ability and willingness to provide informed consent and comply with study procedures and visits
- Participant dermatologists must have access to the required technology (e.g., smartphone with internet access) and be capable of using it for the required image capture

Exclusion (2)

- Patients who are unable to comply with study procedures due to physical or mental health limitations (as assessed by study coordinator)
- Pediatric, adolescent, and teen patients who present with dermatological conditions on their genitalia will not be included in the study (in support of patient privacy concerns).
