

Intranasal and Intravenous Oxytocin for Analgesia to Noxious Heat Pain

NCT07053774

Status	RECRUITING
Phase	Phase 2
Sponsor	Wake Forest University Health Sciences
Enrollment	24 participants

Key Eligibility Criteria

Inclusion (2)

- Male or female ≥ 18 and ≤ 75 years of age, Body Mass Index (BMI) ≤ 40 .
- Generally in good health as determined by the Principal Investigator based on prior medical history, and as assessed to be American Society of Anesthesiologists physical status 1, 2, or 3.

Exclusion (8)

- Recent (≤ 3 months) nasal surgery or chronic conditions requiring daily intranasal (IN) medications
- Hypersensitivity to any ingredient in Pitocin® (marketed preparation of oxytocin for parenteral injection)
- Latex allergy
- Any disease, diagnosis, or condition (medical or surgical) that, in the opinion of the Principal Investigator, would place the subject at increased risk (e.g., active gynecologic disease in which increased tone would be detrimental such as uterine fibroids with ongoing bleeding)
- Women who are pregnant, are currently nursing or lactating, or have been pregnant within 2 years
- ... and 3 more (see full listing online)
