

# An International Observational Study of Adults With Acute Infection

NCT07069400

---

<b>Status</b>	RECRUITING
<b>Sponsor</b>	University of Minnesota
<b>Enrollment</b>	1,500 participants

## Key Eligibility Criteria

---

### Inclusion (4)

- Age ≥18 years old
- Admitted to hospital (or in an emergency department with anticipated hospital admission) for the management of a suspected or confirmed acute infectious disease.
- Onset of symptoms of an infectious disease within the past 30 days.
- Informed consent for study participation by the participant or a surrogate decision maker if the participant lacks capacity for consent.

### Exclusion (4)

- Current imprisonment (this does not include quarantine for an infectious disease).
- Patient undergoing comfort care measures only such that treatment focuses on end-of-life symptom management over prolongation of life.
- Expected inability or unwillingness to participate in study procedures.
- In the opinion of the investigator, participation in the study is not in the best interest of the patient.
