

# Effects of PERMISSive Lung-protective Ventilation on Outcome in Critically Ill Invasively Ventilated Patients

NCT07077174

---

Status	RECRUITING
Phase	Not Applicable
Sponsor	Reinier de Graaf Groep
Enrollment	84 participants

## Key Eligibility Criteria

---

### Inclusion (2)

- admission to one of the participating ICUs;
- intubated and receiving invasive ventilation with an expected duration of ventilation of at least 24 hours.

### Exclusion (11)

- age below 18 years;
- receiving invasive ventilation  $\geq$  1 hour in the ICU, or receiving invasive ventilation  $\geq$  6 hours directly preceding the current ICU admission (i.e., in the operating room or in the emergency department);
- receiving or planned to receive veno-venous, veno-arterial or arterio-venous extracorporeal membrane oxygenation (ECMO);
- having COPD GOLD III and IV;
- contra-indication for hypercapnia, such as ongoing cardiac ischemia (as defined in the guideline of the European Society of Cardiology), or having suspected or confirmed increased intracranial pressure due to brain injury, judged by the attending physician;

... and 6 more (see full listing online)
