

Robot-assisted Versus Open Lateral Pancreaticojejunostomy for the Treatment of Symptomatic Chronic Pancreatitis (PANACOTTA)

NCT07109180

Status	RECRUITING
Phase	Not Applicable
Sponsor	Academisch Medisch Centrum - Universiteit van Amsterdam (AMC-UvA)
Enrollment	28 participants

Key Eligibility Criteria

Inclusion (5)

- At least 18 years old
- Indication for (extended or partial) lateral pancreaticojejunostomy as agreed during multidisciplinary team meeting based on symptomatic chronic pancreatitis (i.e. morphine dependent pain or recurrent acute flares of pancreatitis, at least 3 episodes per year) and a dilated pancreatic duct of ≥ 5 mm, with a non-enlarged pancreatic head ≤ 40 mm
- Confirmed CP, according to the M-ANNHEIM diagnostic Criteria²⁴
- Eligible for both an robot-assisted and open approach
- Obtained written informed consent

Exclusion (5)

- Suspected or confirmed current pancreatic cancer
- ASA classification ≥ 4
- Other painful conditions aside from CP, with pain difficult to discriminate from CP pain
- Prior pancreatic surgery
- Pregnancy
