

# OPI-NXYDLD-303 Safety and Efficacy of Phentolamine Ophthalmic Solution in Keratorefractive Surgery Participants With Decreased Mesopic Visual Acuity

NCT07140783

---

<b>Status</b>	RECRUITING
<b>Phase</b>	Phase 3
<b>Sponsor</b>	Ocuphire Pharma, Inc.
<b>Enrollment</b>	200 participants

## Key Eligibility Criteria

---

### Inclusion (8)

- Males or females e 18 years of age
- Previous history (>6 months prior to Screening) of keratorefractive surgery (eg, PRK, LASIK, SMILE, and RK/astigmatic keratotomy \[AK\]/limbal-relaxing incisions \[LRI\]) in one or both eyes and have participant-reported night vision disturbances (eg, glare, halos, and/or starbursts). Symptoms must have been first noted within 2 months following keratorefractive surgery
- Able to independently comply with all protocol-mandated procedures and to attend all scheduled office visits
- Able and willing to give written consent to participate in this study
- Able to self-administer study medication
- ... and 3 more (see full listing online)

### Exclusion (25)

- Ophthalmic (in either eye unless otherwise noted):
- Prior unresolved dry eye diagnosis, taking prescription medication for dry eye (eg, drops, nasal sprays \[Tyrvaya®\], etc.), or taking artificial tear drops routinely for dry eye
- Prior history of fluctuating vision
- Clinically significant ocular disease as deemed by the Investigator (eg, untreated visually significant cataract, glaucoma, corneal edema, uveitis, severe keratoconjunctivitis sicca, retina degeneration, loss of visual field due to glaucoma or stroke, branch retinal vein occlusion, retina flare) that might interfere with the study
- History or presence of corneal endothelial dystrophy (eg, Fuchs' dystrophy or presence of guttae)
- ... and 20 more (see full listing online)

## Locations (23 total)

---

Arizona Eye Care, Chandler, Arizona, United States  
Carrot Eye Center, Mesa, Arizona, United States  
Eye Doctors of Arizona, Phoenix, Arizona, United States  
... and 20 more locations
