

# Clareon PanOptix Versus AcrySof PanOptix : Prospective Study Comparing Contrast Sensitivity

NCT07158177

---

<b>Status</b>	RECRUITING
<b>Phase</b>	Not Applicable
<b>Sponsor</b>	Assistance Publique - Hôpitaux de Paris
<b>Enrollment</b>	40 participants

## Key Eligibility Criteria

---

### Inclusion (6)

- Patients e 18 years of age
- Patients presenting for cataract surgery in routine clinical practice and eligible for multifocal IOL implantation (toric and non-toric)
- Patients with grade 2/3 cataract density and comparable visual acuity in both eyes
- Patient with a pregnancy test (negative pregnancy test), if applicable
- Patient with signed consent to participate in the study

... and 1 more (see full listing online)

### Exclusion (13)

- Children \< 18 years of age
- Pregnancy or breast-feeding in progress or planned during the study.
- History of anterior (cornea, anterior chamber, sulcus) or posterior (uveal, vitreoretinal) segment pathology, including retinal vascular occlusive disease, retinal detachment or peripheral retinal laser photocoagulation, AMD, glaucoma.
- Any inflammation of the anterior or posterior segment, whatever the etiology, and/or history of any disease with intraocular inflammatory repercussions.
- Clinically significant corneal pathology (epithelial, stromal and/or endothelial) that could have an impact on visual results.

... and 8 more (see full listing online)
