

Shelter HArm Reduction Evaluation

NCT07170072

Status	RECRUITING
Sponsor	NYU Langone Health
Enrollment	80 participants

Key Eligibility Criteria

Inclusion (17)

- For Aims 1a, 1b, and 2: There will be no participant enrollment or direct contact with individuals as these aims will involve the use of an analytic dataset comprised of linked administrative NYC homeless services, Medicaid, and vital records. The dataset will include records for individuals who entered the NYC DHS single-adult shelter system during calendar years 2021-2026, as well as a matched comparison group(s) (as identified through Medicaid data) during the same years. The matched comparison group will be comprised of individuals age 18 and older with active Medicaid coverage at the time of observation.
 - For Aim 3 Homeless Services Client participant group: To be eligible for participation in this study, an individual must meet all of the following criteria:
 - Adult 18 year of age or older
 - Speak English
 - Is staying or has stayed in an NYC single-adult shelter that has implemented HRSP interventions
- ... and 12 more (see full listing online)

Exclusion (3)

- Aims 1a, 1b, and 2: Children under age 18 years of age will be excluded.
- Aim 3: Under age 18 years old, currently a prisoner (we are not sampling from locations where we expect to encounter prisoners), unable to communicate in English (because the interview and focus group guides will not be validated for use in other languages), and unable to provide informed consent.
- For Aim 3 Homeless Services Client participant group: those who are not staying or have not stayed at a shelter with HRSP interventions and those who do not report past-year drug use will not be excluded.
