

Electronic Patient Reporting of Symptoms and Unmet Needs to Connect Patients With Advanced Cancer to Palliative Care Services

NCT07195513

Status	RECRUITING
Phase	Not Applicable
Sponsor	Dartmouth-Hitchcock Medical Center
Enrollment	90 participants

Key Eligibility Criteria

Inclusion (3)

- Age ≥18 years.
- Diagnosis of unresectable or metastatic, incurable thoracic, gastrointestinal, or breast solid tumor.
- Receiving active cancer-directed therapy longitudinally in the outpatient oncology clinic and expected to continue treatment.

Exclusion (4)

- Members of vulnerable populations, including infants, minors, individuals unable to provide informed consent, and those who are incarcerated or imprisoned at the time of enrollment.
- Already established with palliative care, defined as having a scheduled future palliative care appointment, a pending referral, or a visit with palliative care within the past 90 days.
- Unable to provide informed consent in English.
- Cognitive impairment that, in the judgment of the treating clinician, would preclude study participation.
