

The Role of Neuroinflammation on Neurocognitive Outcome in Cardiac Surgery

NCT07200726

Status RECRUITING
Sponsor Ziekenhuis Oost-Limburg
Enrollment 50 participants

Key Eligibility Criteria

Inclusion (2)

- aged 60 years or older;
- scheduled for cardiac surgery.

Exclusion (2)

- dementia, as diagnosed by a specialist, since this would make detection of PNCD impossible;
- urgent, not elective surgery.
