

Leadless Pacemaker Registry: Outcomes and Follow-up From the University Hospital of St. Pölten

NCT07246135

Status	RECRUITING
Sponsor	Karl Landsteiner University of Health Sciences
Enrollment	700 participants

Key Eligibility Criteria

Inclusion (4)

- Patients undergoing implantation of a leadless pacemaker at the University Hospital of St. Pölten
- Patients who previously received a leadless pacemaker between June 2015 and the start of the registry (retrospective inclusion).
- Age ≥ 18 years.
- Written informed consent provided by the patient.

Exclusion (3)

- Patients who decline or are unable to provide informed consent.
- Patients in whom a conventional transvenous pacemaker is implanted (i.e., not leadless).
- Any condition that, in the opinion of the treating physician, precludes participation in the registry.

Locations (1 total)
