

Investigating the Acceptance and Performance of Low Energy Audio Streaming in Nucleus 8 and Kanso 3 Sound Processors by Experienced Cochlear Implant Users

NCT07262827

Status	RECRUITING
Phase	Not Applicable
Sponsor	Cochlear
Enrollment	20 participants

Key Eligibility Criteria

Inclusion (7)

- Aged 18 years or older
- Implanted with at least one of the CI1000 Series, CI600 Series, CI500 Series, Freedom Series or N24 Series cochlear hearing implants.
- At least 3 months experience with a cochlear hearing implant
- Demonstrated ability to score 30% or more at +15 SNR with Cochlear implant alone on a sentence in noise test.
- Willingness to participate in and to comply with all requirements of the protocol
- ... and 2 more (see full listing online)

Exclusion (5)

- Additional disabilities that would prevent participation in evaluations
- Unrealistic expectations on the part of the participant, regarding the possible benefits, risks and limitations that are inherent to the procedures
- Unable or unwilling to comply with the requirements of the clinical investigation as determined by the Investigator.
- Investigator site personnel directly affiliated with this study and/or their immediate families; immediate family is defined as a spouse, parent, child, or sibling.
- Current participation, or participation in another interventional clinical study/trial in the past 30 days, involving an investigational drug or device (unless Cochlear sponsored and determined by Investigator or Sponsor to not impact this investigation).
